

# INTERNATIONAL MINING EXPO & CONCLAVE

14 - SPECIAL ZONES

5<sup>th</sup>  
Edition

29,30 September | Sunday - Monday | 2024  
Chennai Trade Centre

## **01. M-Sand Sales Festival & Technical Guidance.**

**The M-Sand Festival Zone offers a comprehensive 360-degree sales and technical approach to individuals who aim to comprehend and enhance M-Sand's technicalities and sales opportunities, with the ultimate goal of taking their business to the next level. The zone serves as a gathering place for individuals ranging from top-level to moderate-level business industry professionals, including distributors, promoters, manufacturers, builders, technical experts, etc. This makes it simple to acquire any M-Sand-related clarifications and encourages builders, contractors, and consumers to attend the festival for hands-on experience and valuable information.**

## 02. Concrete Solutions Zone.

**Clients and customers can seek assistance in improving their concrete solution aspects from the Special Concrete Material Zone's technical team and top-level concrete specialists. The zone offers advice and guidance on innovative materials, technologies, types of concrete, project customization options, technical consultation, onsite support, design assistance, efficiency, cost effectiveness, and best practices in material sales and purchase. Additionally, the zone provides expertise and services related to concrete production, construction, or maintenance within the forum.**

## **03. Exclusive Safety Procedures & Technical Guidelines for Explosives.**

**The exclusive safety zone is a gathering of experts who specialize in explosive safety and technical guidance. They offer solutions and guidelines for improving safety standards, exploring alternative methods, reducing risks, and ensuring compliance with regulations. Their goal is to provide effective and standardized solutions to technical problems and optimize the use of resources.**

## **04. Exclusive Safety Products & Training Programme.**

**To enhance workplace safety across various mining segments, an exclusive safety products and training programme hub involves establishing a dedicated area with top-level technical and explosive safety experts. This area will provide comprehensive safety products, advancements in safety technology and solutions, training programmes, guidance, and how to implement them at times of need .**

## 05. Investor Meet.

**A five-member investment team of experts provides guidance and solutions for quarry investment, including purchase, sales, project execution, and start-up. The zone provides comprehensive support, including financial planning, revenue awareness, and government assistance, to enable them to sustain, stabilize, and drive their quarry business to the next level.**

## **06. Government Guidance Panel for Quarry and Crusher Owners.**

**The zone offers a comprehensive solution to its stakeholders by increasing awareness of the importance of regulatory compliance, promoting sustainable practices, licenses, permit approval procedures, agreements, contracts, online registration, renewal procedures, and essential government guidelines that must be adhered to in order to comply with regulations.**

## **07. Special Technical Guidance Programme for PWD Contractors.**

**A separate team will assess the needs of the PWD contractors and assist them in the development of an Awareness program. The contractor is free to contact them. For instance, they may need help with the development of an awareness campaign, the identification of a manufacturer or supplier, the manpower assistance or organization of a campaign for a different domain, or the implementation of a quality control campaign, among other tasks. The team will assess all of these factors and establish assistance, guidelines, and pathways to facilitate their connection and networking, thereby expanding their production opportunities.**

## **08. Special Insurance Programme for Mining Workers.**

**The zone's goal is to promote a safety culture, increase awareness of the importance of insurance coverage in the mining sector, and provide essential financial protection to both workers and companies in compliance with government regulatory requirements and the most effective industry practices. The insurance zone is open to insurance registrations for individuals, companies, or organizations for their secured lives ahead.**

## **09. Exclusive Financial Guidance Programme for Quarry, Crusher Owners & Mining Segment.**

**A team of banking personnel will host the zone, providing the necessary financial guidance and support to the mining sector, as well as quarry and crusher proprietors. They offer solutions and opportunities, which may manifest as temporary financial assistance, long-term financial assistance, government schemes, or private sector schemes. The team will provide them with the necessary support and guidance to identify potential solutions that will satisfy their financial needs.**

## 10. Transport and Logistics Guidance.

A separate transport and logistics wing will address operational challenges and provide regulatory guidance on transport and logistics-related awareness. This is crucial for the mining industry, as it ensures the efficient movement of raw materials, equipment, and finished products. The wing offers a variety of vehicle-related information, including registration, purchasing, and technical details; the latest developments in the logistics field; and digital marketing strategies for vehicles, all tailored to meet their logistics and transportation needs.

## **11. Quarry & Crusher Owners: Corporate Guidance Programme.**

**A special corporate guidance programme Wing is providing unique guidance and brand-related services to quarry and crusher Owners. If they are interested in supplying materials to corporate brands or if they want to connect with the corporate brand through marketing, establishing a partnership, or forming an association with the corporate brand, the Wing is here to assist you. The Wing will provide the necessary guidance and appropriate support for any activities related to corporate brand association, including sales, manufacturing, and association.**

## **12. License, Permission, Approval, Procedures, Quarry Permit, & Machinery Permit for Quarry & Crusher Owners.**

**We have set up a dedicated zone with a team of experts to handle licenses, permissions, approvals, and procedures that quarry and crusher owners should be aware of. This allows them to navigate and streamline regulatory compliance and operational efficiency more effectively, thereby promoting sustainable growth and compliance within the mining sector.**

## **13. Training Programme & Medical Checkup for Operators & Technicians.**

**A special zone is assigned for a basic medical check-up, which encompasses various assessments and tests with the goal of assessing the general health condition and pinpointing potential health hazards among mining laborers. This approach not only increases productivity but also reduces absenteeism and boosts employee morale, all at no cost .**

## 14. Job Fair.

**We created a special job fair zone to connect mining companies with potential employees, promote mining sector career opportunities, facilitate networking, and align with mining aspirants' job pursuits. The team in the zone gathers resumes from the aspirants, directs them to various mining domains based on their job preferences, and raises awareness to help them advance to higher levels of job opportunities**
